RADIO GUIDELINES POLICY

Clarksville-Montgomery County School System (CMCSS) supplies radios for communication within the school system. CMCSS equips central office, the transportation office, buses, and schools with radios to ensure instant communication during emergencies, i.e. accidents, threatening weather, hazardous road conditions, etc., and to conduct general transportation communications.

All radio communications via base one (transportation dispatch) and base two (vehicle maintenance) are recorded by the transportation operations center. Recordings are maintained on audio CD for 20 years.

Implementing Procedures: TRN-P019 Radio Use
