

NORTHEAST HIGH SCHOOL

COMPUTER & INFORMATION TECHNOLOGY

ACADEMY

CITA 2.0

All campers will receive a unique technology experience that encompasses all of the offerings of the Computer Information Technology Academy (CITA). Build basic coding skills in order to have objects perform tasks. Receive hands-on robotic engineering training with our award winning robotics students and compete in a friendly competition. Participation will also include crucial team building skills that are relevant to current technology industry standards. Join us and experience the fun of CITA!
